Giving Back

The Friedkin Conservation Fund (FCF) was established for the purpose of conserving more than 3.3 million acres of Tanzania's protected areas; including its wildlife, wilderness and the local stakeholders of these natural resources. The FCF is actively involved in supporting conservation and community development in Tanzania through working closely with the Wildlife Division of Tanzania and supporting the FCF primary focus on anti-poaching operations, innovative community development projects, Geographic Information System (GIS) mapping and research programs.
